- Why do you want children and adolescents to be as defenceless as possible to harassment and lethal schizophrenia attacks?
- You want to laugh and witness me going to jail. (I never hear your laughter).
- You cannot see that sending petitions will make no difference at all in our lifetimes, or beyond NSLHD
- You are scared you will be incriminated in something or anything. Impossible.
- Do you fear you will lose your cash payments? Are you too scared to

put how much how \$\$\$ how often into one of the anonymous contact forms on my websites? I can maintain your dividends. At least try.

- You fear being subjected to a CTO or forced medication. WRONG.
 - I am going to suggest to Hornsby Hospital NSLHD that consumers should be allowed to voluntarily be subjected to random urinalysis, for their own safety.
- You think that my personal revision study of the DSM V will ever be published or read outside of NSLHD.
- Is it a priority concern that sending a petition will decrease the extent to which I am a paedophile (by your assertion), or I will I paedophile under scrutiny more than suits you.
- You believe without uncertainty that 100% removal and deprivation of human freewill can and will be used “judiciously” by Masons and Freemasons!
- If my drug charges and certain conviction is funny, why do you persist in my declination?
- You must believe that your cruelty and hatred is volitional. And your group-based homicide of schizophrenics through torture is autonomous as a group.
- Can you not see – visualise – the immediate short-term future of firstly a) schizophrenics, but more imminently b) human civilization is catastrophe, resulting from humans having NO FREEWILL AT ALL.

-----> **This portends the end of human civilization on Earth**
